

ISWARA & COMPANY

BRIEF HISTORY OF FIRM

S. Tharma Iswara returned to Malaysia in December 1993 after being in U.K. where he practised as a Registered Auditor. In January 1994 he joined **Viru, Goona & Associates**, Chartered Accountants as the third partner. In December 1994, for technical reasons he started an associate practice, **Iswara & Company**. Both **Iswara & Company** and **Viru, Goona & Associates** are still for all intents and purposes one firm. The two firms specialise in the provision of services to clients who prefer a more personalised approach to their financial affairs.

We combine strong technical skills with a personal service. Our current portfolio of clients range across a wide diversity of industries and services.

Our reputation, clientele, performance and professionalism reflect our overriding approach to accountancy. While maintaining independence and providing clients with a personalised service, we are able to draw on the strength of our associates who are specialists in their respective fields. In this way we combine a personal service to our clients with wide ranging skills and a wealth of practical experience normally associated with the international firms of accountants - but which is not always available to the smaller business.

This association also allows us to provide in-depth advice on all types of assignments.

OUR APPROACH

By drawing on our depth and breadth of experience, the range of services offered can be tailored to suit clients' specific requirements. We have expertise in all aspects of accounting in industry and commerce.

TAXATION

We are specialists in corporate and personal taxation and provide a comprehensive service on all aspects of this vital subject. We are able to provide precise recommendation. Advice and assistance which ensures both companies and individuals plan their tax affairs effectively and in accordance with current legislation.

LIQUIDATION

Tharma Iswara has been an Approved Company Liquidator since June 1998.

He initially carried out liquidation work on a variety of companies which were voluntarily wound up. He is now working together with Chiltern Insolvency Sdn. Bhd. on companies being wound up by the court.

At our firm you will find a service tailored to our clients' specific needs.
